Tom messaging Murray

Murray receives tom's message

Selection_039

Discover chat rooms on teamorange.space
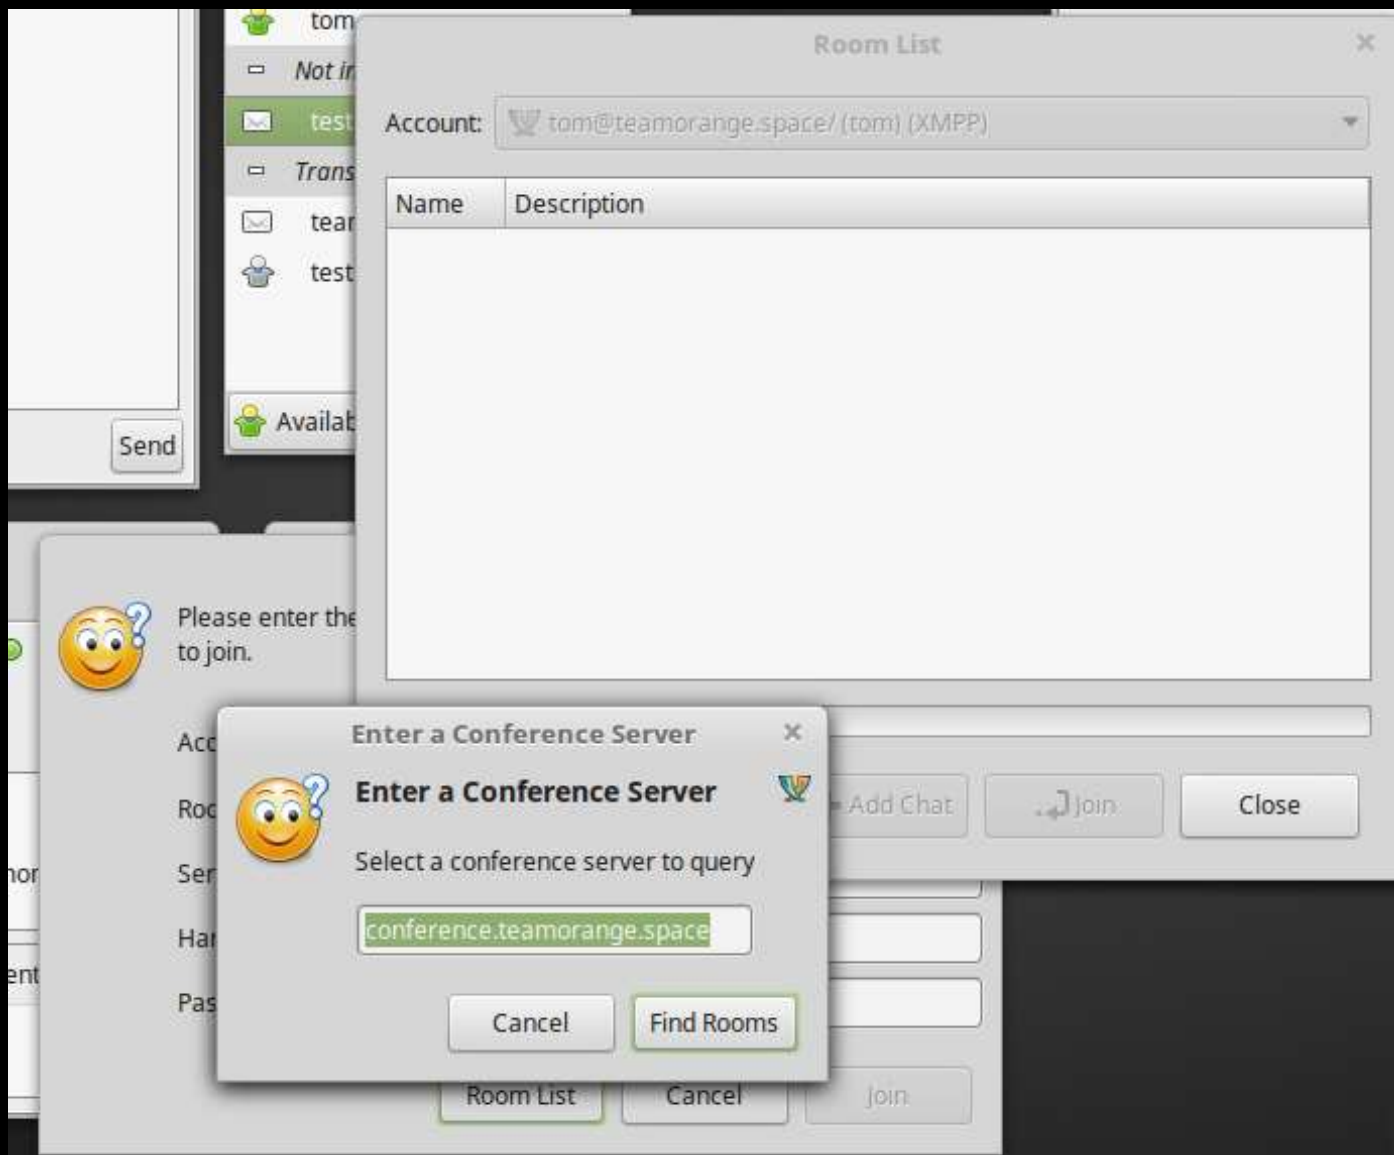

Query finds the chatroom "subdomain"
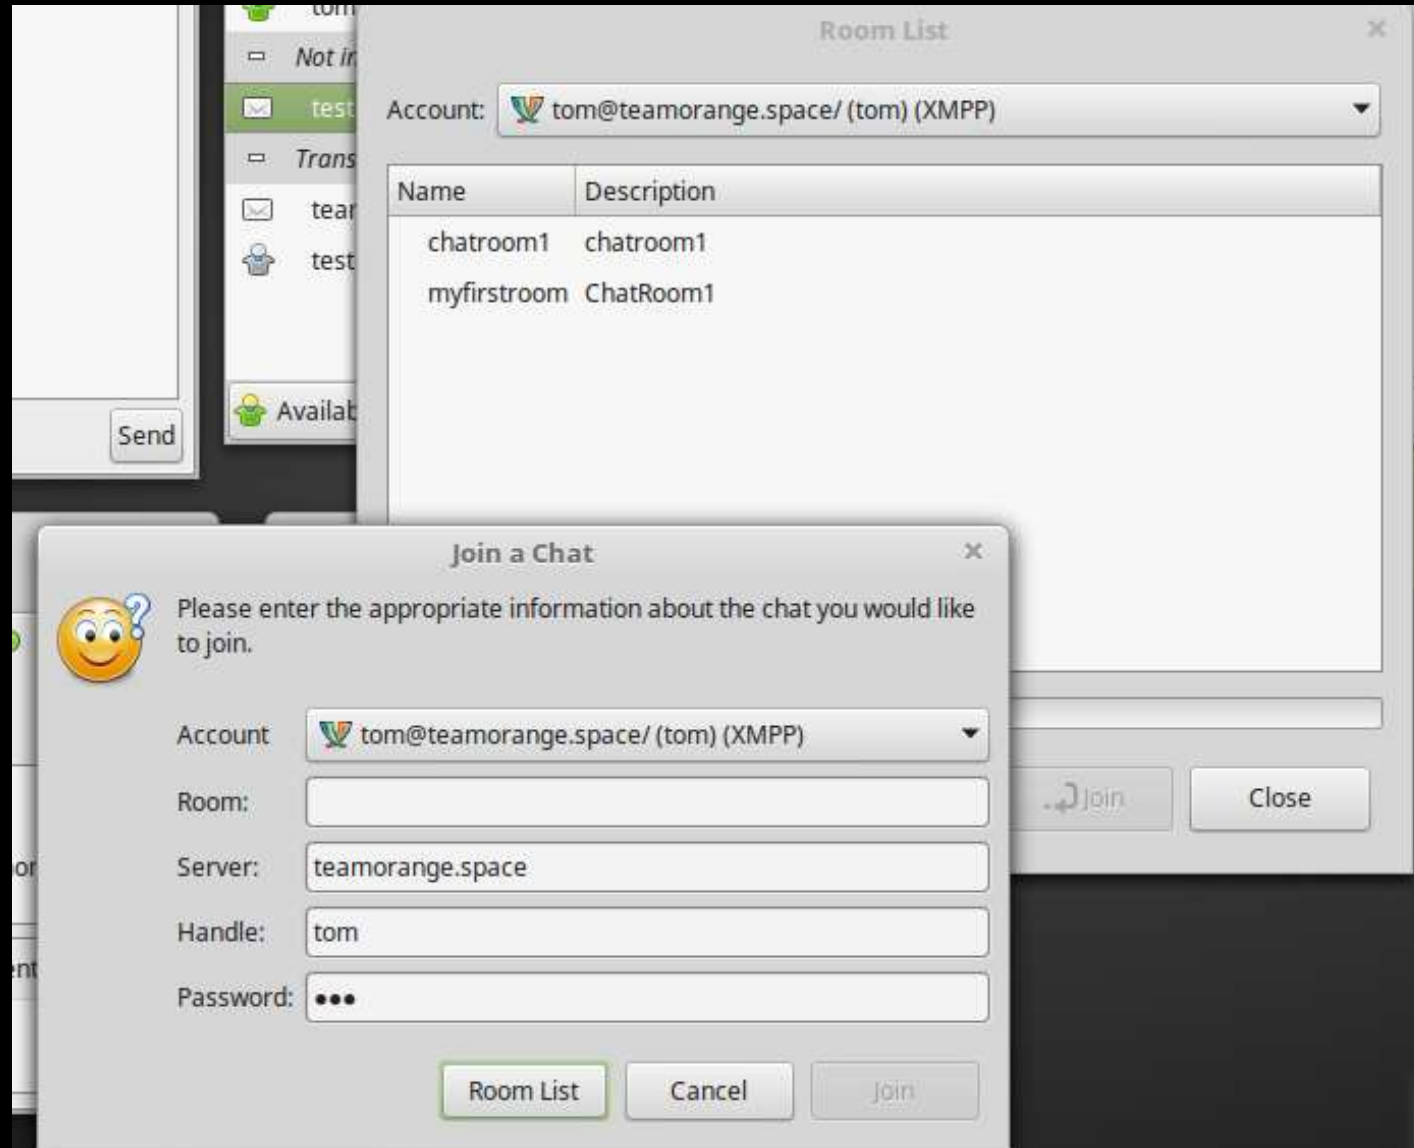

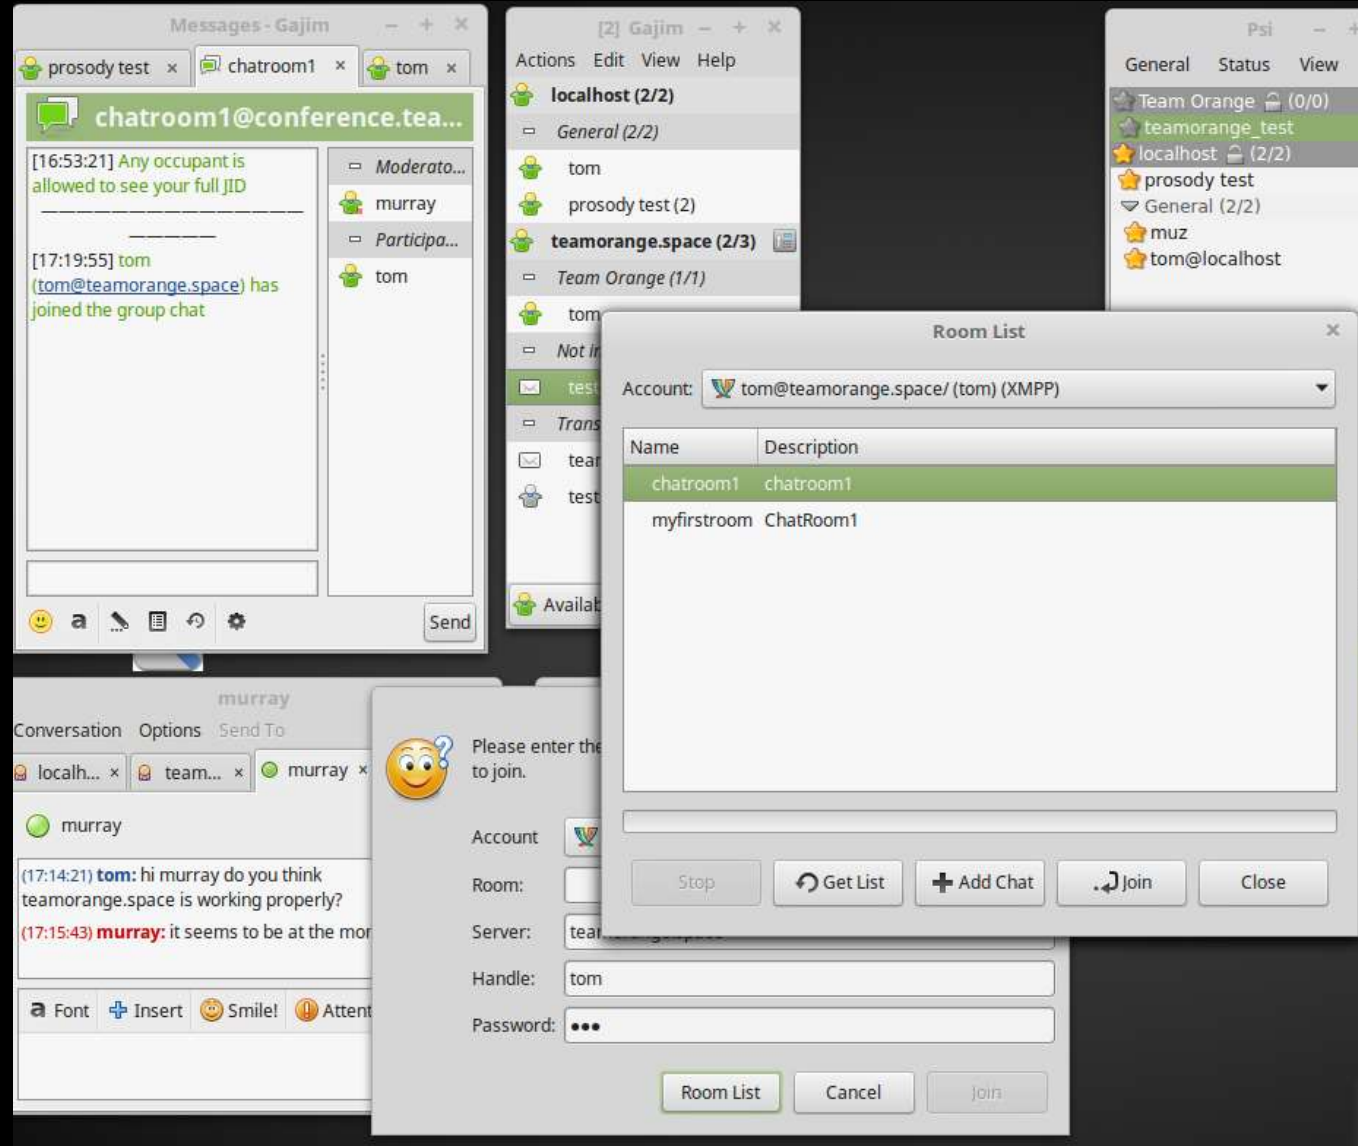

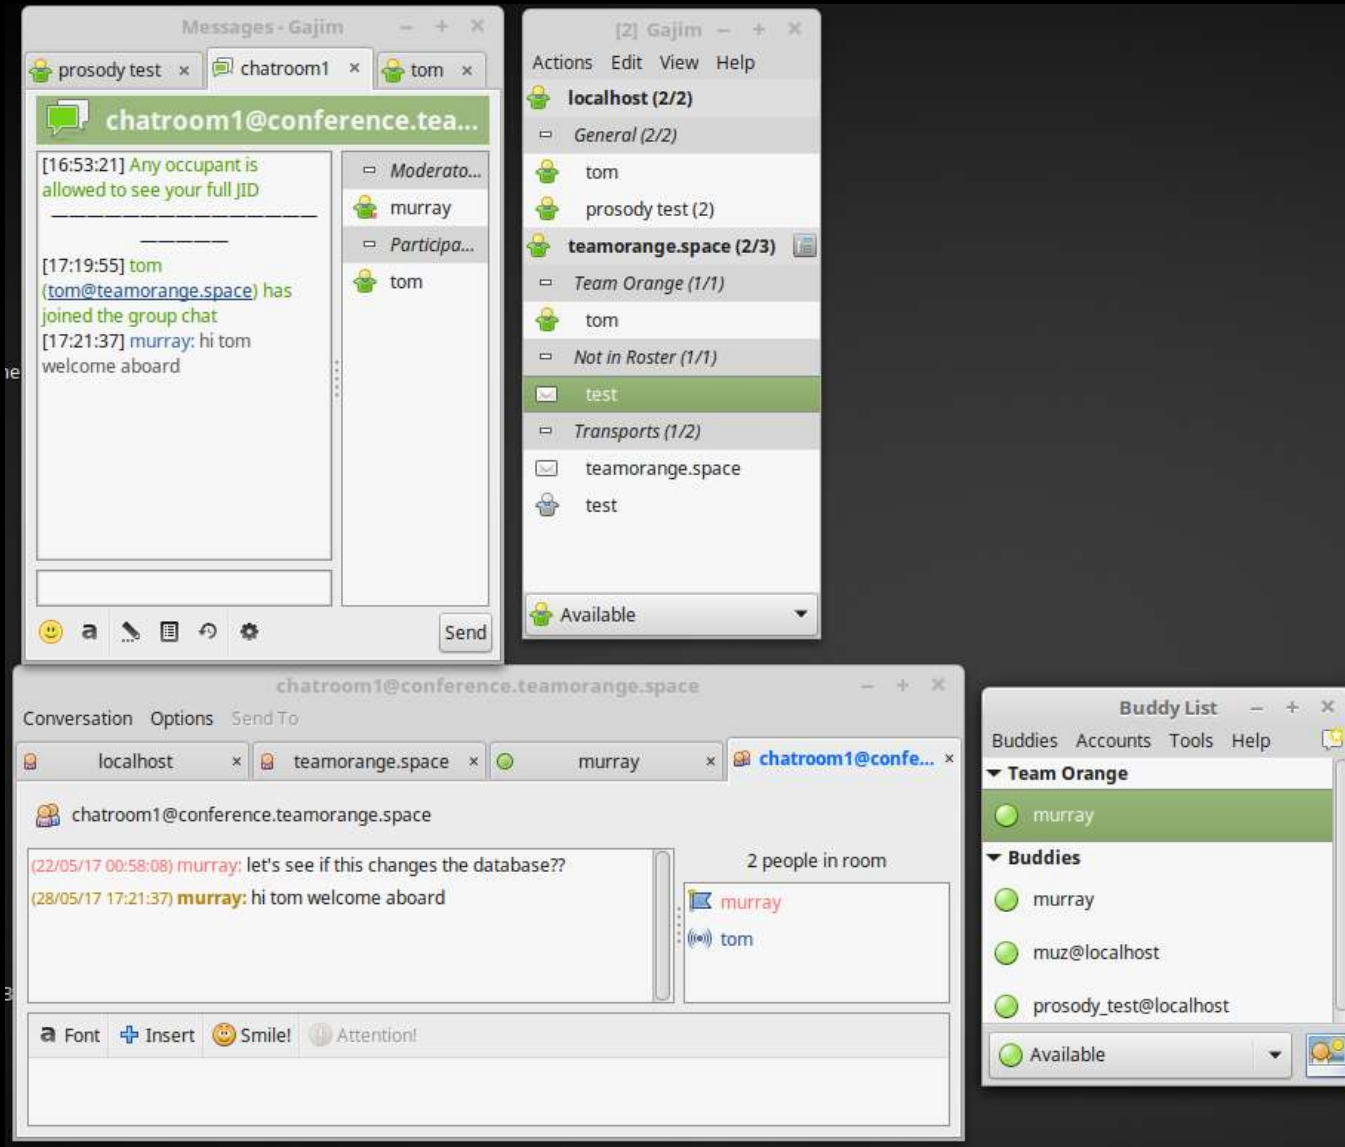

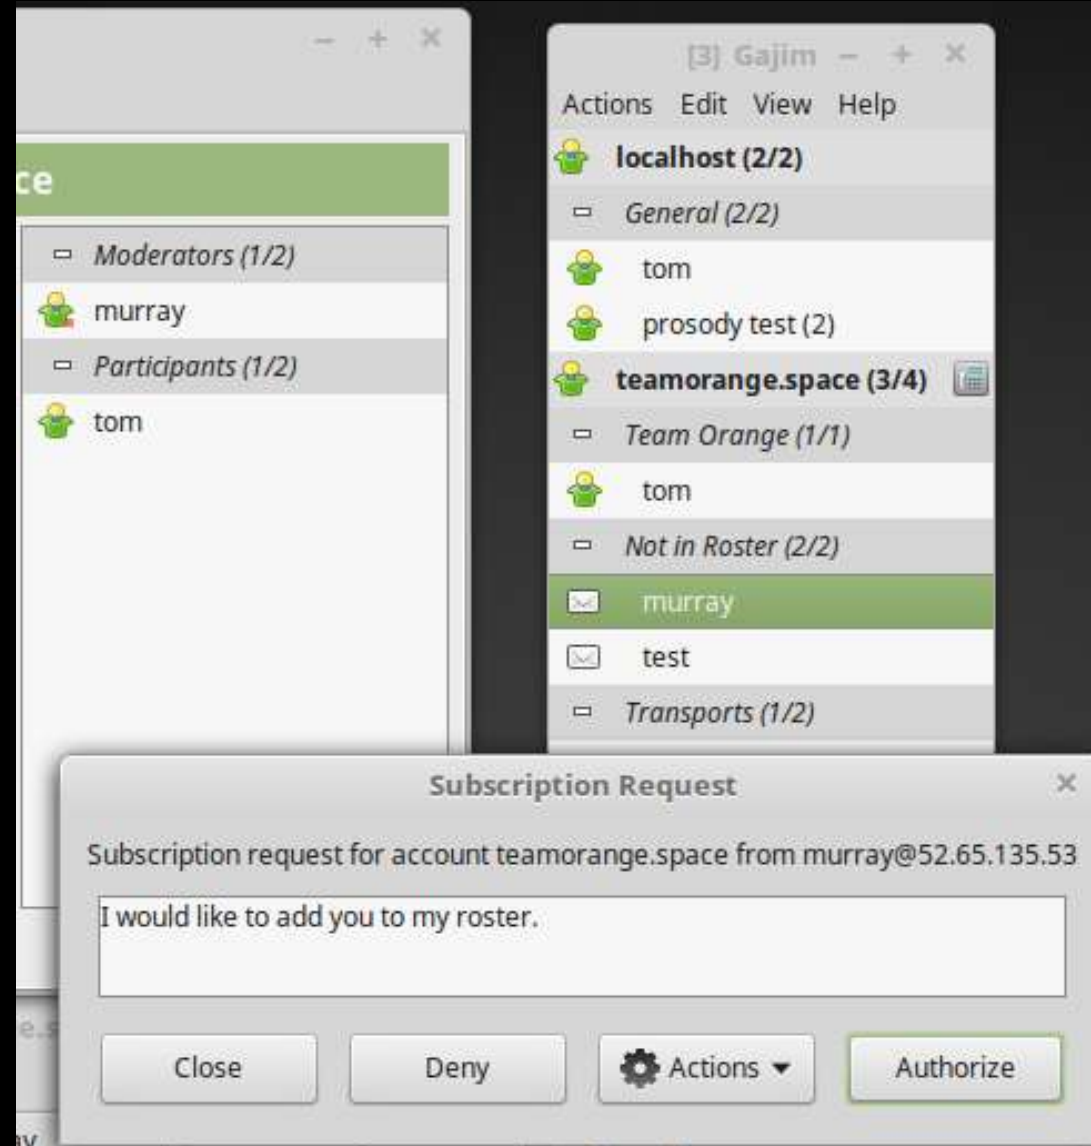

About to join chatroom1

Tom jointed chatroom 1 (see top left)

Tom & murray chat in the chatroom

Aws account requests to add teamorange account

AWS account being added
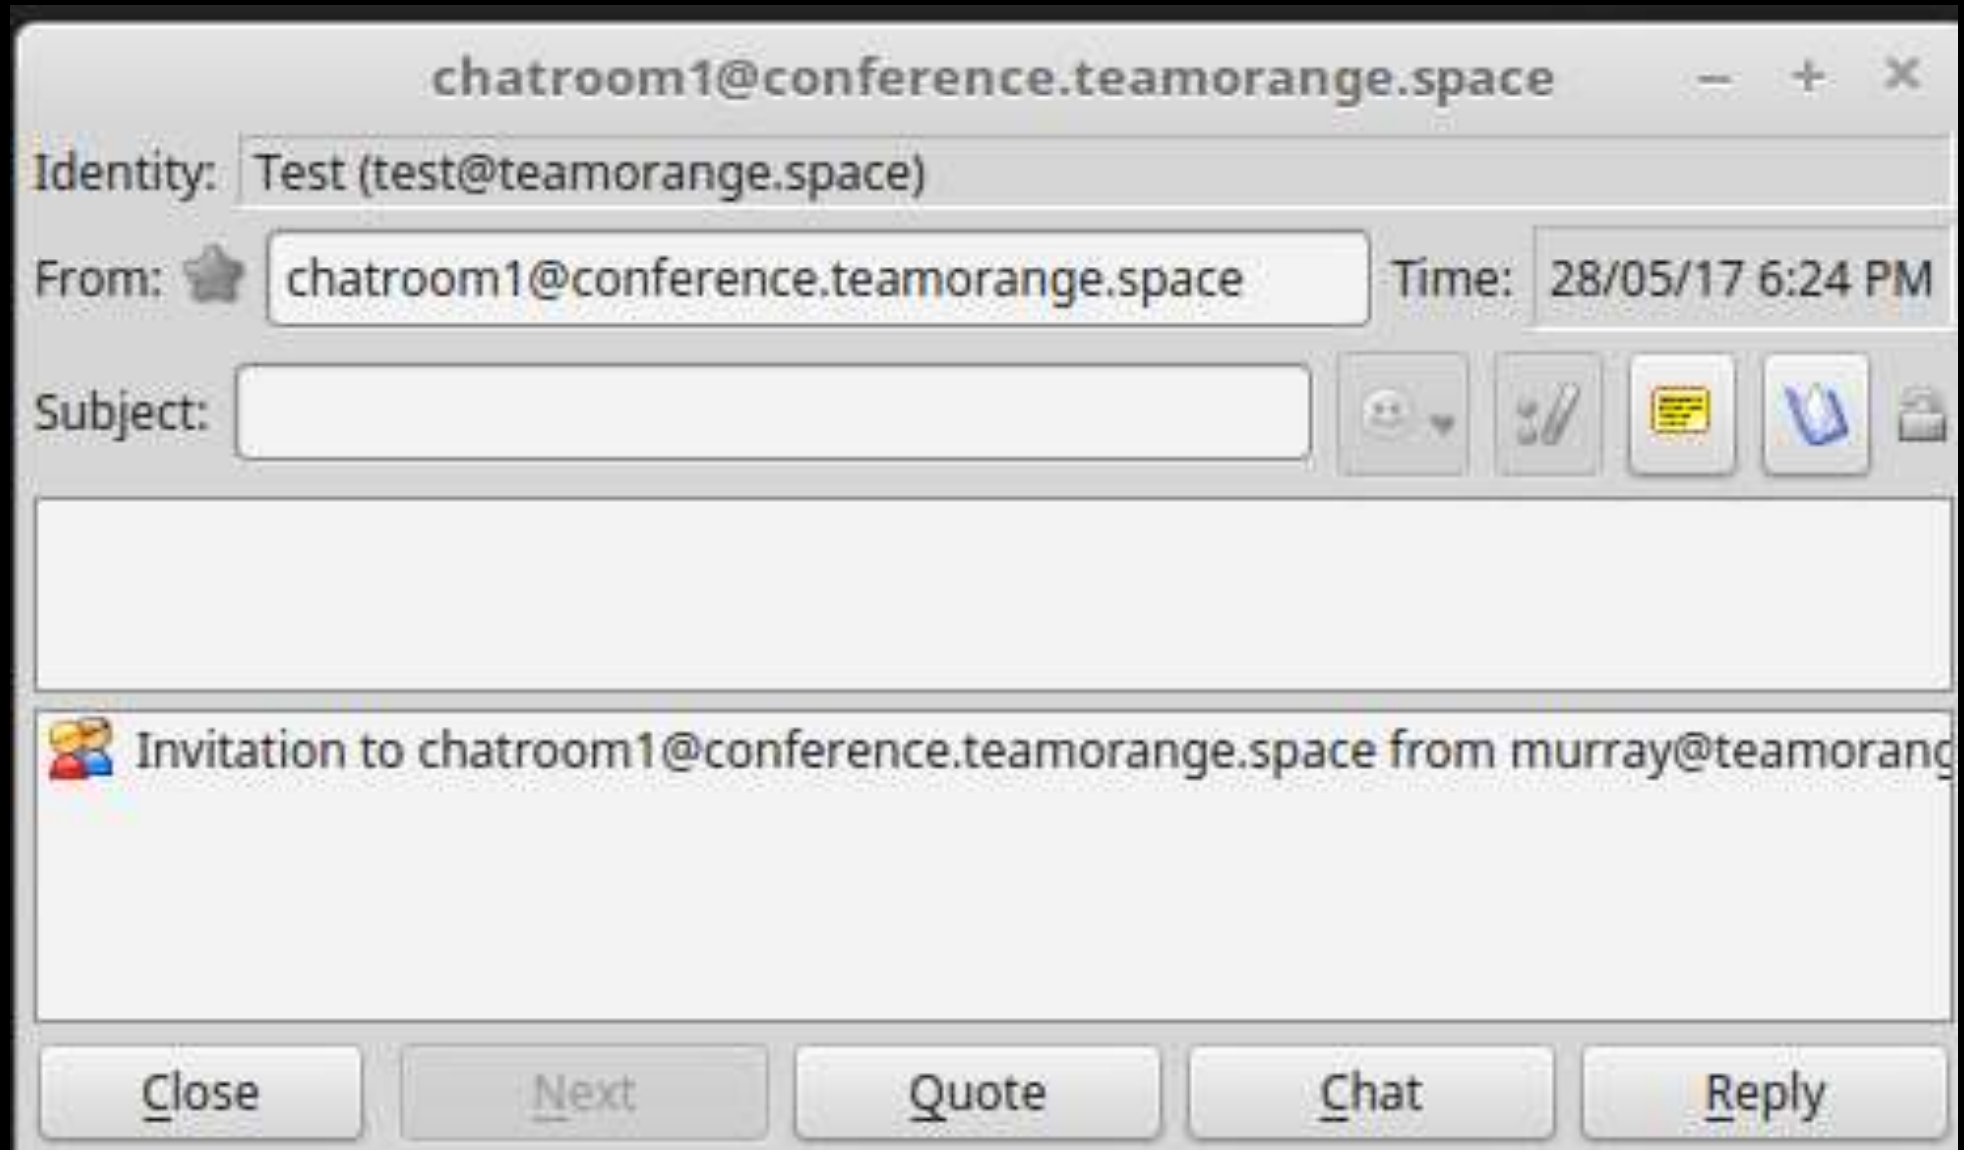

Test was running on PSI, I couldn't join the chatroom for some reason from PSI
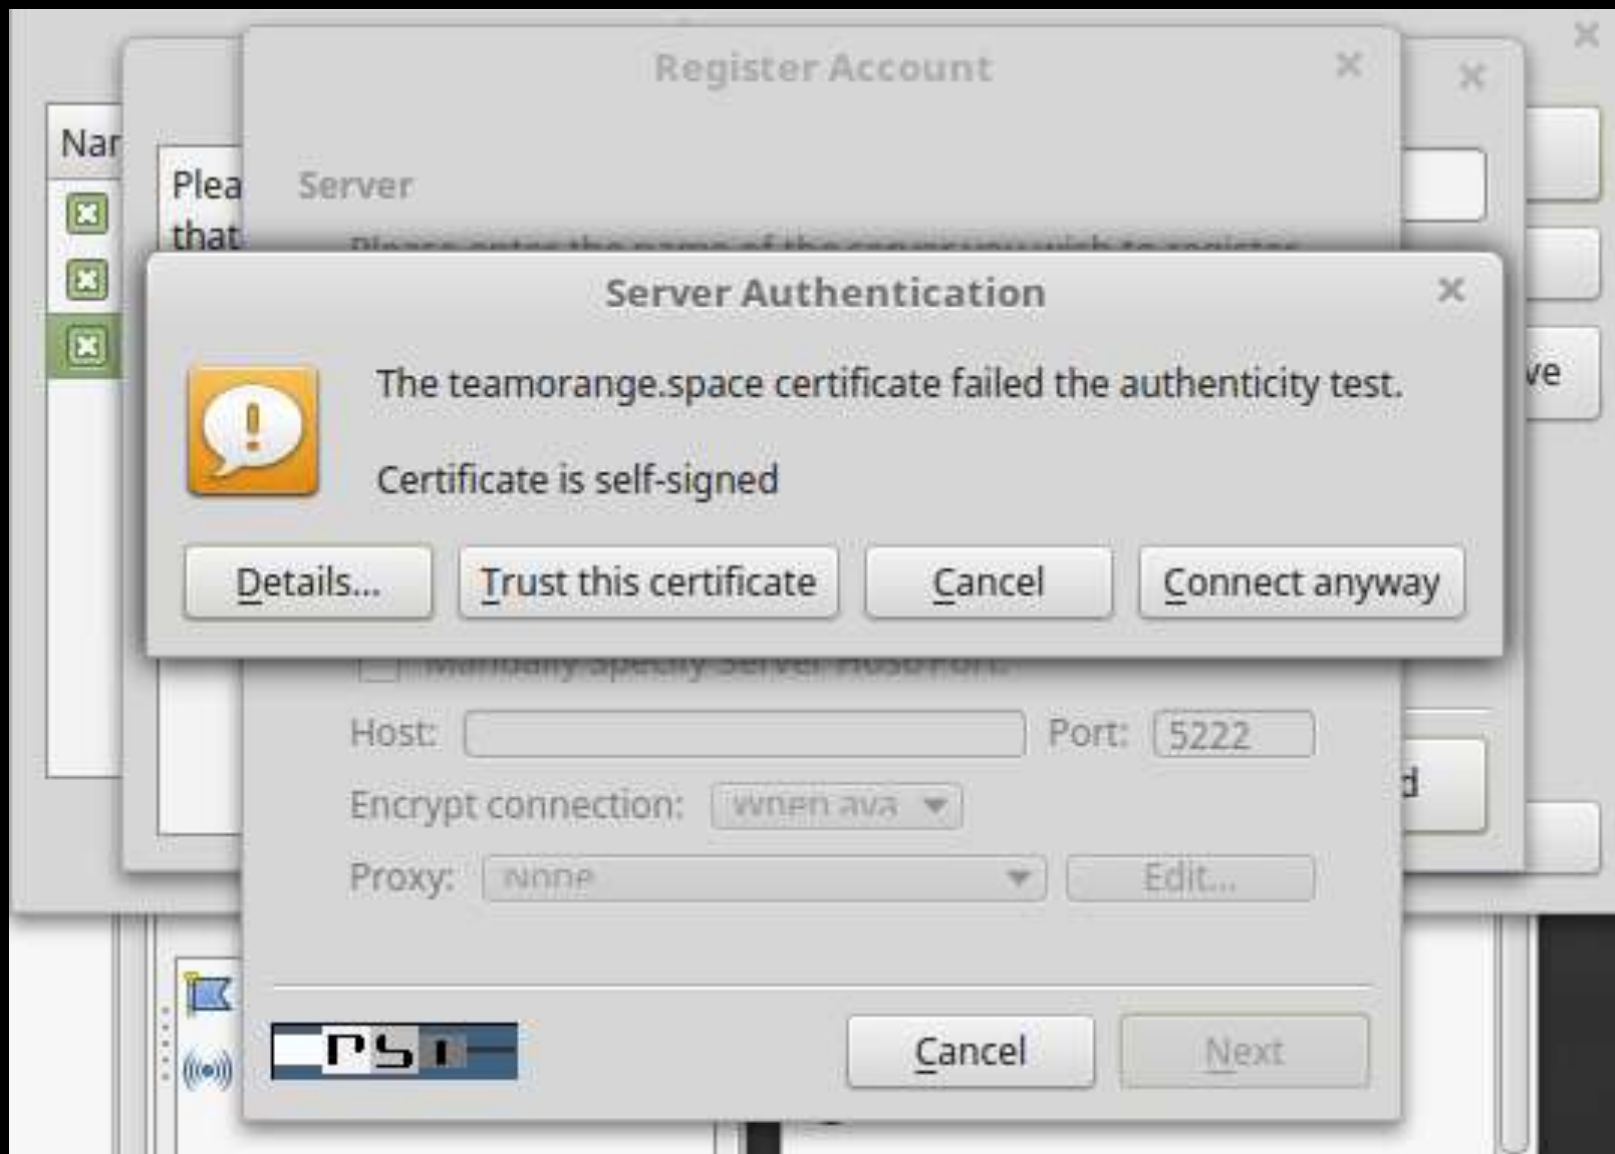

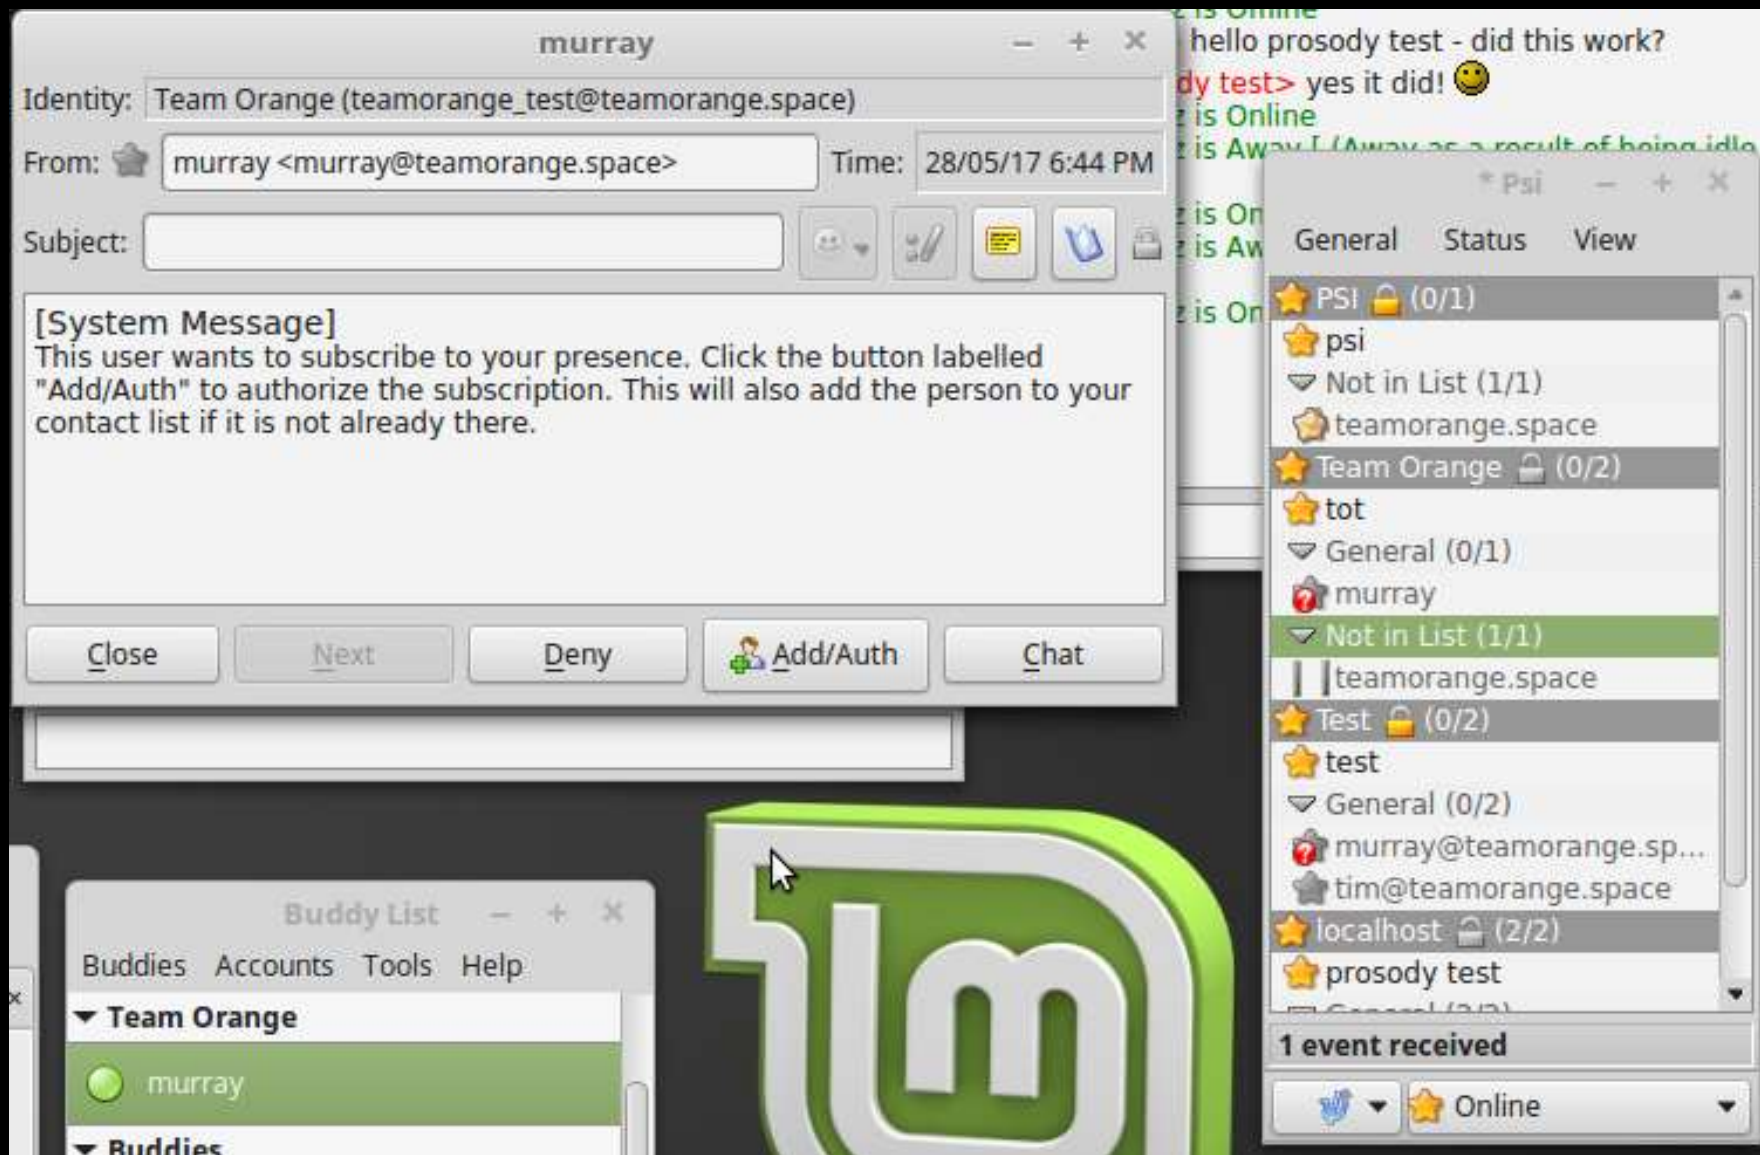

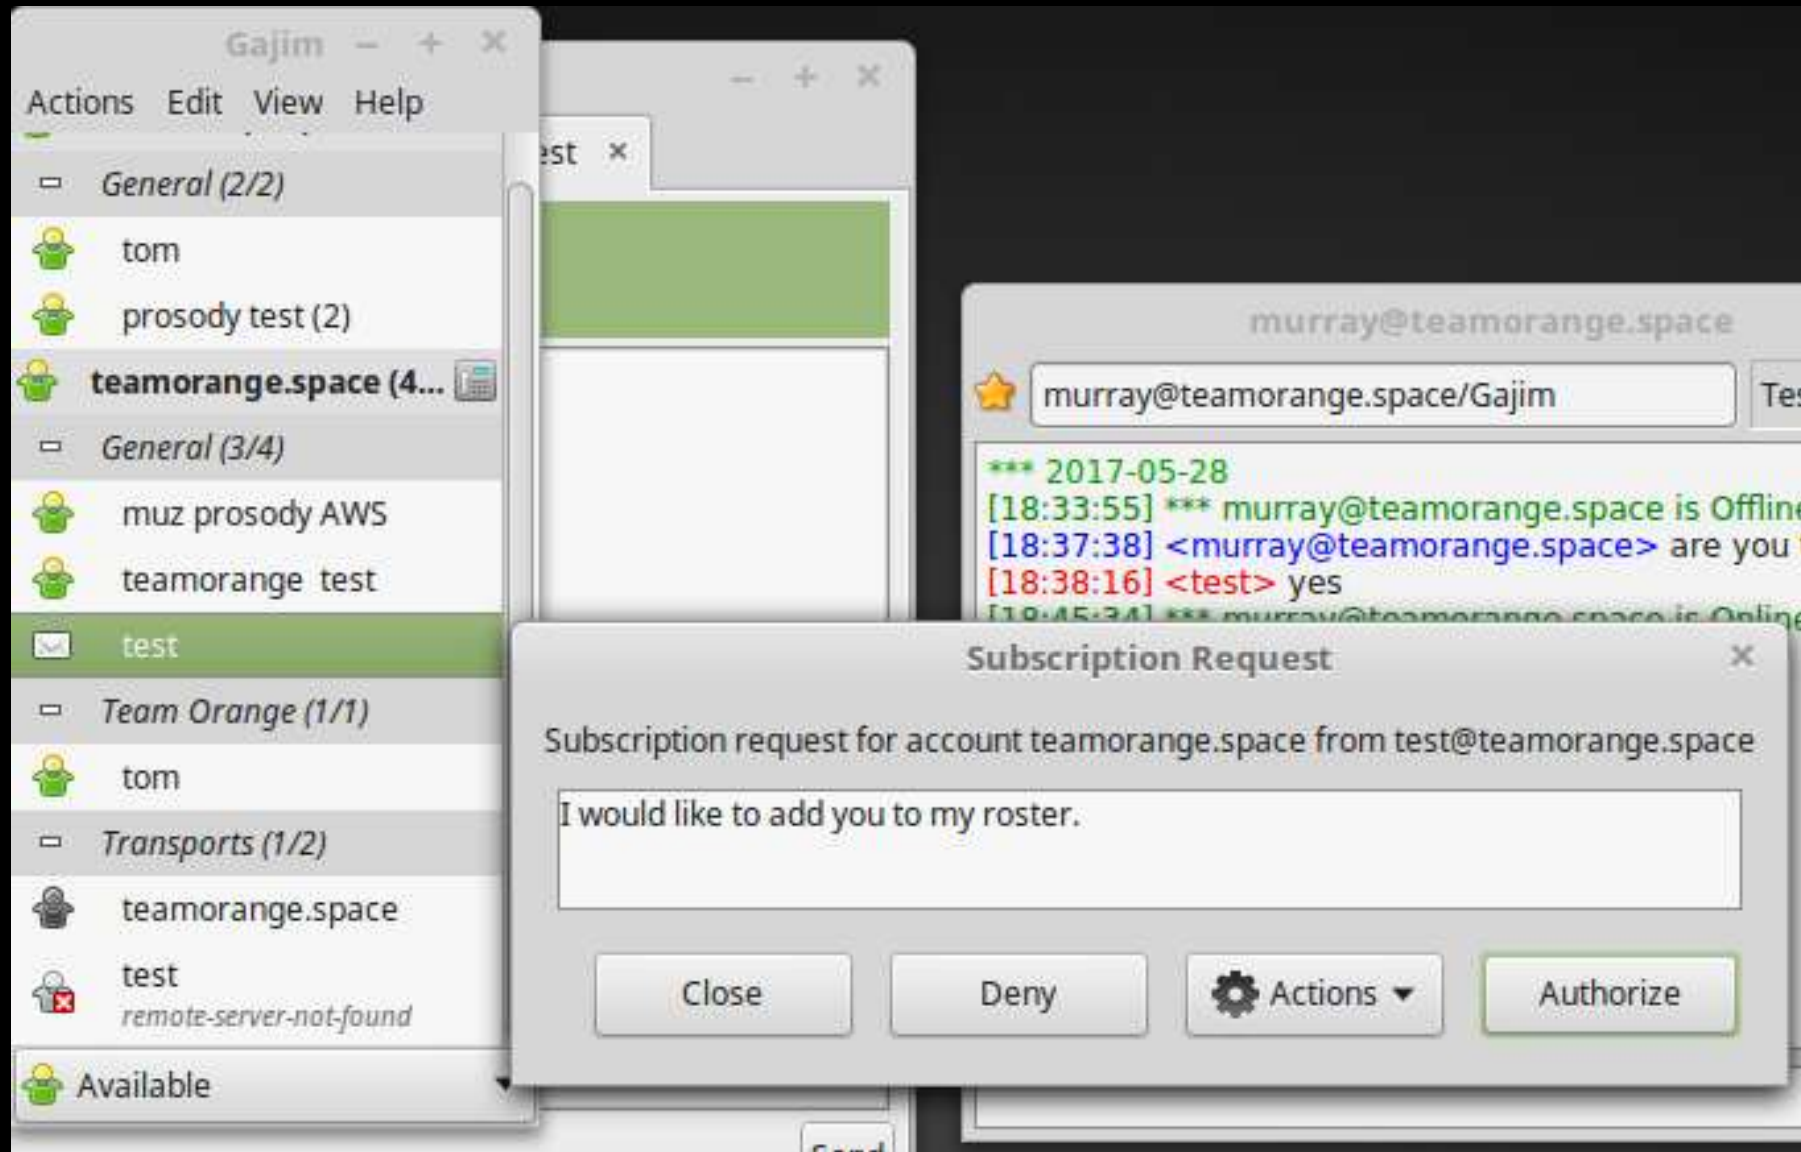

Teamorange certificate error

There were a few challenges getting any presence/subscription between PSI and gajim

Interesting, I rejected Murray from test and it was difficult to reverse that decision
